

MANNOL MP-2 Multipurpose Grease

8106 / 8027 / 8095 / 8098 / 8102 /
8047 / 8114

General purpose multi-purpose grease made from highly refined mineral oils with a thickener based on lithium soap with the addition of special antioxidant and anti-corrosion additives.

Product properties:

- Retains its operational properties to a temperature of at least +120°C, which increases the service life of bearings;
- It has good water resistance;
- Reliably protects against corrosion during operation of the equipment in a polluted environment for a long service life;
- It has excellent mechanical stability and oxidation stability;
- The grease consistency remains constant during long-term storage. Shelf life 5 years from the date of production.

Application:

- High-speed plain and rolling bearings (ball and roller);
- Bearings of electric motors and generators, pumps, etc;
- Closed bearing units with lifetime lubrication;
- Designed for use in all types of mobile technology, and for general industrial use.

Observe the manufacturer's instructions in the technical manual!
