

## MANNOL Lock De-Icer 9967

Lock De-Icer is an ideal car lock defroster that quickly unlocks vehicles in severe frosts. Provides fast defrosting of locks, hinges and other movable joints operated at low temperatures.

Properties:

- Thanks to its high penetrating power, it quickly defrosts frozen parts of locks, restoring their functionality;
- Contains corrosion inhibitors that prevent rust formation;
- Forms a film on the surface that has a lubricating effect;
- Prevents re-freezing;
- Regular use protects the locks from freezing even at low (down to  $-50\text{ }^{\circ}\text{C}$ ) temperatures.
