

A/C Recovery & recharge station for hybrid cars CT4106

Automatic device for filling of air conditioning systems for hybrid vehicles for which the manufacturer prescribes the use of R134a.

Suit for: Hybrid car
Refrigerant: R134a
Mode: Fully-automatic
Screen: LCD

Specifications:

Recovery speed: 180~350G/min
Recharge speed: 800~1500G/min
Vacuum speed: 60L/min
Refrigerant tank available capacity: 14 L
Electronic scale range: 0~35KG
Oil bottle capacity: 300ML
Operating temperature: 5~50°C
Voltage: AC220v/50Hz/1PH
Max. working pressure: 17.5bar
Low pressure protection: Less than 1 bar
Electronic scale precision: ±10g

Compressor: 275w
